About the ISSA

The Information Systems Security Association (ISSA) is an international organization providing educational forums, publications and peer interaction opportunities that enhance the knowledge, skills and professional growth of its members - information security professionals. The primary goal of ISSA is to promote management practices that will ensure availability, integrity and confidentiality of organizational resources. Visit the ISSA-Sacramento web site [issa-sac.org](http://www.issa-sac.org).

MARCH ISSA CHAPTER MEETING SPONSORED BY ACCELLION

FRIDAY, AUGUST 20, 2010, 11:00 am - 1:00 pm

Location:
HP Medi-Cal
3215 Prospect Park Dr.
Rancho Cordova, CA

Secure File Transfer

Sharing digital information quickly and securely has created IT and security challenges for many organizations. Protecting the transfer of intellectual property, ensuring compliance, improving business productivity and reducing costs are the reasons companies around the world select Accellion secure managed file transfer.

Accellion is a privately held company headquartered in

Palo Alto, California. Founded in 1999, Accellion, Inc. provides enterprise-class managed file transfer solutions for security and data leak prevention that meet today's business requirements for digital information transfer. Accellion is the pioneer and leading provider of appliance-based file transfer solutions for virtualized and cloud environments. In 2009 Accellion also announced the availability of Accellion Managed SaaS in the cloud. Accellion file transfer is designed to be cost-effective, and easy to use

for both business users and IT.

Be sure to RSVP on the [issa-sac.org](http://www.issa-sac.org) web site!

Don't Forget to RSVP to Reserve Your Free Lunch!

Members who RSVP for chapter meetings receive a free lunch. Non-members who RSVP can get a lunch for only a \$5 recommended donation. People who don't RSVP get to drool. Avoid dehydration by RSVPing at [issa-sac.org](http://www.issa-sac.org)!

fill·er, /'fɪlər/ -noun

1. a person or thing that fills: a filler for pies; a filler of orders.
2. *Journalism.* material, used to fill out a column or page.

ISSA International

ISSA Sacramento Valley Chapter is a chapter of ISSA International. To find out more about about the Information Systems Security Association visit the ISSA International web site at <https://www.issa.org/>

ISSA TECH TUESDAY, WITH DEAN HIPWELL AND KEVIN FULLER TUESDAY, AUGUST 10, 6-8PM

Have you found something cool, security-wise, that you'd like to try out, or discuss, or do you just want to hang out with fellow secu-

rity folks who know more than you do and pick their brains? Take advantage of Dean and Kevin, and the network they'll set up on

Tuesday for this purpose!

New Horizons CLC
1750 Creekside Oaks Drive,
Suite 150, Sacramento, CA

See [issa-sac.org](http://www.issa-sac.org) for info.

Chapter Partners and Sponsors:

Join ISSA Sacramento!

You don't have to be a member to come to our meetings and workshops, but members also enjoy discounts, networking, career growth, and many other benefits. See our membership web page at <http://www.issa-sac.org/membership/>

PRESIDENT'S MESSAGE (SPEASE SPEAKS)

I hope everyone is enjoying their summer as much as I have been. While I never get enough family time, this summer has been one of the best. By the end of this month, the school year will be in full swing (in most places), the days will be shorter and we'll

all have our heads back in the game at work. But before we let summer slip away for 2010, let's take advantage of the warm days and reenergize! We're looking forward to seeing you August 20!

— Kevin Spease
prez2010@issa-sac.org

"By the end of this month, ... we'll all have our heads back in the game at work. Take advantage of the warm days and reenergize!"

Keeping America Safe

<i>Facility Coordinator</i>	Balaji Pachiyappan

MEMBER SPOTLIGHT GET TO KNOW YOUR FELLOW MEMBERS

Norm Hinman is a Security Officer / Network Analyst for the City of Roseville. Prior to that, he managed a network engineering team. He holds CISSP, MCSE, CCSP, CCNA, and CCDA certifications.

Q: Public sector vs. private sector job?

A: I currently have a public sector job. At the time I came over to the PS, I was interested in the pension benefits and stability of working for the public sector. I must admit that the private sector is looking better at this time due to the severe pressure on pub-

lic sector budgets and potential for 'pension reform'.

Q: Latest interesting security related project?

A: We are currently working on establishing a set of security policies in response to a financial audit. In addition, we are working on establishing internal scanning procedures to do periodic assessments of our security posture. Lastly, we have a project to implement an SIEM and Logging solution.

Q: What is the most over hyped product / technology in security today?

A: 'Intrusion Prevention'. I have never seen an IPS product that was very reliable and actually was smart enough to prevent attacks without causing a myriad of false positives and false negatives.

Q: Day on the beach, day in the mountains or a day around the house?

A: On the beach with nice waves and a 8-9' long board. My other interests include gardening, hiking, fishing, skiing and travel. I have an especially warm regard for New Zealand; wish I was there!

HELP NEW HORIZONS PICK CLASSES

New Horizons of Northern California is trying to decide what courses to add to its 2010, 3rd and 4th quarter class schedule and needs your help! Are you using or plan to use such IT technologies as VMware, SharePoint, Citrix, any of the Microsoft 2010 servers or Microsoft Office 2010? What else would you like to see? Contact Ed Gans with your input! <egans@nhsacramento.com>

CLOUD-BASED WEB SECURITY IS BETTER?

A webinar, Web Security in the Cloud: More Secure, Compliant, Less Expensive August 24, 2010 | 2 p.m. Eastern / 11 a.m. Pacific. "58% of users of cloud-based web security solutions had fewer incidents of malware", says Symantec, the vendor. Find out for yourself. Register at <http://www.bulldogsolutions.net/SymantecHS/SHS1028/frmSeries.aspx?bdls=24821>

JOB OPENING AT HP MEDI-CAL

The HP Medi-Cal Information Security Office is looking for a contractor to carry out Risk Assessments, Compliance Reviews, and other security tasks. CISSP required. Experience with NIST and HIPAA standards helpful. Questions? Contact Bob Grill <robert.grill@hp.com>, the ISO.
